

Improving Influenza Vaccination Rates in Critical Access Hospitals 10/26/2016

Objectives

- Provide an overview of OP – 27 Influenza Vaccination Among Healthcare Personnel (HCP) and IMM – 2 Immunization for influenza for CAH inpatient stays
- Review and describe reporting requirements on both measures

OP – 27

Influenza Vaccination Among Healthcare Personnel

MBQIP Domain	Patient Safety
Description	Percentage of healthcare workers given influenza vaccination
Reporting Process	NHSN website
Data Sources	Hospital Compare, MBQIP Data Reports, FMT Reports
Importance	1 in 5 people in the US get influenza each season. Combined with pneumonia, influenza is the 8 th leading cause of death, with two-thirds of those attributable to patients hospitalized during the flu season

National Healthcare Safety Network (NHSN)

- Located on the CDC site
<http://www.cdc.gov/nhsn/>
- Download the Healthcare Personnel Safety Component Manual
 - There are two modules
 - Healthcare Personnel Exposure Module
 - Healthcare Personnel Vaccination Module

HCP Influenza Vaccination Summary

- Monthly Reporting Plan - required
- Influenza Vaccination Summary - required
- Seasonal Survey on Influenza Vaccination Programs for Healthcare Personnel - optional

Form Approved
OMB No. 0920-0666
Exp. Date: 10/31/2016
www.cdc.gov/nhsn

Healthcare Personnel Safety Monthly Reporting Plan

Page 1 of 1
*required for saving

Facility ID#: _____ *Month/Year: _____ / _____

No NHSN Healthcare Personnel Safety Modules followed this month

Healthcare Personnel Exposure Modules

- Blood/Body Fluid Exposure Only
- Blood/Body Fluid Exposure with Exposure Management
- Influenza Exposure Management

Healthcare Personnel Vaccination Module

Influenza Vaccination Summary

Healthcare Personnel Influenza Vaccination Summary

Page 1 of 2

*required for saving, ^conditionally required for saving

Record the number of healthcare personnel (HCP) for each category below for the influenza season being tracked.				
*Facility ID#:		^Location:		
*Vaccination type: Influenza	*Influenza subtype ^a : <input type="checkbox"/> Seasonal	*Influenza Season ^b :	Date Last Modified: ___/___/___	
	Employee HCP	Non-Employee HCP		
	*Employees (staff on facility payroll)	*Licensed independent practitioners: Physicians, advanced practice nurses, & physician assistants	*Adult students/ trainees & volunteers	Other Contract Personnel
1. Number of HCP who worked at this healthcare facility for at least 1 day between October 1 and March 31				
2. Number of HCP who received an influenza vaccination at this healthcare facility since influenza vaccine became available this season				
3. Number of HCP who provided a written report or documentation of influenza vaccination outside this healthcare facility since influenza vaccine became available this season				
4. Number of HCP who have a medical contraindication to the influenza vaccine				
5. Number of HCP who declined to receive the influenza vaccine				
6. Number of HCP with unknown vaccination status (or criteria not met for questions 2-5 above)				

IMM – 2

Immunization for Influenza

MBQIP Domain	Patient Safety
Description	Percentage of inpatients assessed and given the influenza vaccination
Reporting Process	QualityNet via Inpatient CART or vendor
Data Sources	Hospital Compare, MBQIP Data Reports, FMT Reports
Importance	1 in 5 people in the US get influenza each season. Combined with pneumonia, influenza is the 8 th leading cause of death, with two-thirds of those attributable to patients hospitalized during the flu season. Hospitalization is an underutilized opportunity to vaccinate

CART Fields to be answered for Flu Immunization

- 1. Would you like the questions to be enabled or disabled appropriately?
 - Enable/Disable appropriately
- 2. Principal Diagnosis
 - Enter principal diagnosis
- 3. Other Diagnosis
 - Enter only one or two other or secondary diagnosis codes
- Skip Principal and other Procedure codes
- 6. Source of Payment
 - If you say Medicare you will need to answer # 7
- 7. Medicare #

Cart Fields (cont'd)

- 8. Patient's zip code
- 9. Does this case represent a sample
 - Enter yes
- 10. Discharge Disposition
- 11. Influenza Vaccination Status
 - See next page

Influenza Vaccination Status

- **What is the patient's influenza vaccination status? (FLUVACSTATUS)**
 - Influenza vaccine was given during this hospitalization.
 - Influenza vaccine was received prior to admission during the current flu season, not during this hospitalization.
 - Documentation of patient's or caregiver's refusal of influenza vaccine.
 - There was documentation of an allergy/sensitivity to influenza vaccine, anaphylactic latex allergy, or anaphylactic allergy to eggs OR is not likely to be effective because of bone marrow transplant within the past 6 months OR history of Guillan-Barré syndrome within 6 weeks after a previous influenza vaccination.
 - None of the above/Not documented/Unable to determine from medical record documentation.
 - Only select this allowable value if there is documentation the vaccine has been ordered but has not yet been received by the hospital due to problems with vaccine production or distribution AND allowable values 1-5 are not selected

Critical Access Hospital Submission Deadlines

Quality Data Reporting Deadlines			
Discharge Quarter		Outpatient Submission Deadline	Inpatient Data Submission Deadline
Q1 - 2016	Jan-March	Aug 1, 2016	Aug 15, 2016
Q2- 2016	April-June	Nov 1, 2016	Nov 15, 2016
Q3- 2016	July – Sept	Feb 1, 2017	Feb 15, 2017
Q4 2016	Oct - Dec	May 1, 2017	May 15, 2017

Technical Assistance Services by OFMQ

- Ongoing emails and phone communication with CAHs on quality measures and reporting
- TA with Quality Net and CART
- Limited TA with Secure QualityNet Portal and NHSN (CDC)
- Webinars
- Quality Improvement

Please call with any questions or if assistance is needed.

Donna Piatt, RN

Hospital and Nursing Home Quality Improvement Coordinator
