

MOMENTUM

A Monthly Publication Produced by OFMQ
Oklahoma's trusted resource for improving your EHR & Health IT Experience

Happy 50th Birthday to Us!

Leading efforts to advance healthcare and improve lives.

Since 1972, Oklahoma Foundation for Medical Quality (OFMQ) has been a trusted resource through collaborative partnerships and hands-on support to healthcare communities throughout Oklahoma. Through its Healthcare Quality Improvement Program (HCQIP), OFMQ has established partnerships and built strong relationships within every sector of the healthcare system, including hospitals, physicians, managed care organizations, medical associations, and consumers over the last five decades.

OFMQ works in all corners of our state. Pictured here are Clinical Consultants, Sandra Burchill and Diana Flood, along with HIT Manager, Jason Felts, representing OFMQ at the Altus Wellness Symposium. Keep up with our upcoming events [here](#).

Clinical Consultant, Zach Grimes, presents Substance Use Stigma Training at the 2022 Rural Health Conference. To learn more about our stigma and naloxone training offerings, click [here](#).

HIT Manager, Ashley Rhude, discusses MIPS requirements at the 2022 Rural Health Conference. Learn more about how we can assist with [MIPS](#)!

HIT Manager, Jason Felts, presents on the HRSA-funded project, Western Oklahoma Wellness, at the 2022 Rural Health Conference. Learn how you can be a part of the project [here](#)!

OFMQ service offerings include:

- CMS Quality Payment Program guidance
- Hospital Quality Reporting – Inpatient + Outpatient
- Independent medical case review
- Healthcare technology optimization
- Indian Health Services (IHS) and tribal health consulting
- Nursing home quality improvement and education
- Healthcare Quality Improvement
- Data analysis and visualization
- HIPAA Security Risk Management
- Community Outreach Projects
- Customized special projects

OFMQ Awarded GusNIP Grant to Improve Food Security

Forty-three awards make up a [\\$20.7 million Produce Prescription Program](#) investment through USDA's American Rescue Plan funding for the GusNIP program. Among the 43 FY22 Produce Prescription Program proposals awarded, 95% are first-time applicants to the GusNIP Produce Prescription Program, and 60% are new entries to NIFA overall. In addition, \$38.7 million will support eight GusNIP Nutrition Incentive projects.

The U.S. Department of Agriculture (USDA) announced an investment of \$59.4 million to support the Gus Schumacher Nutrition Incentive Program's (GusNIP) Produce Prescription and Nutrition Incentive programs designed to encourage families and individuals to eat more healthfully by increasing access to fresh fruits and vegetables. This investment delivers on a commitment made in the Biden-Harris Administration's National Strategy on Hunger, Nutrition, and Health to improve access to healthy and affordable food.

OFMQ December Events

FREE WEBINAR + CEU!

Proper Prescribing Guidelines with Jessica McGuire, PhD from the Oklahoma Bureau of Narcotics

Thursday, December 15th
12 - 1pm

Southcentral Consortium for Overdose Prevention and Education in Oklahoma

[Leading Rural Oklahoma to Improve Lives](#)

We will discuss the prescriber guidelines as it relates to Title 63 and Title 475. We will also discuss best practices and legal requirements when it comes to controlled substances. By the end of the presentation, one should be familiar with what is required of prescribers when prescribing, dispensing, and administering controlled substances.

What You Need to Know: The New 2023 CEHRT Requirements for the Medicare Promoting Interoperability Program

CMS wants to remind Medicare Promoting Interoperability Program participants about certified electronic health record (EHR) technology (CEHRT) requirements, which begins in

calendar year (CY) 2023.

To be considered a meaningful user and avoid a downward payment adjustment, eligible hospitals and critical access hospitals (CAHs) attesting to the Medicare Promoting Interoperability Program will be required to only use certified health IT that has been updated consistent with the [2015 Edition Cures Update](#) criteria to successfully meet the CEHRT requirements.

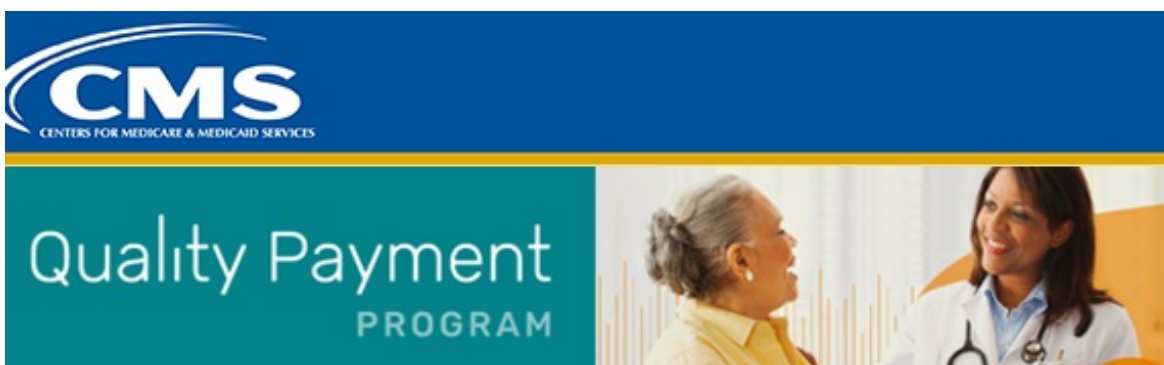

HealthIT.gov

More Universal Use of Electronic Health Records is Improving Patient Care

New policies and standards have not only made it easier for health care providers to access patient records more easily and accurately, but have also helped patients obtain their own information.
