

HIPAA Risk Management

OFMQ

ADVANCING QUALITY » IMPROVING LIVES

01

Risk Management Meetings

OFMQ engagement with your organization to assess, recommend, and remediate risk assessment findings. Attend regular risk management meetings.

02

Technical Guidance

OFMQ to meet with key personnel and resource owners to provide technical guidance and recommendations for remediation activities.

03

Formalize Strategies

Development of formal strategies and timelines for corrective actions.

04

HIPAA Documentation

OFMQ to review current HIPAA policies and procedures and suggest revisions or development of missing content.

05

Remediation & Ongoing Follow-up

All medium and high risks need corrective action or outsourced to business associate. Annual security risk assessment must be performed to review mitigation of threats.
